Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicants' response, which included amendment to claim 1, 21, 29 and 39, and addition of claims 47-52 and cancellation of claims 3-5, 32-36, 38 and 40-46, filed on 7/17/2006, is made of record. Claims 1,2, 6-31, 37, 39 and 47-52 are now pending.

In view of applicants' response, following apply.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 2, 6-31, 37,39 and 47-49 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Following reasons apply. Any claim not specifically rejected is rejected as being dependent on a rejected claim and shares the same indefiniteness.

1. Claim 1 and its dependent claims 2, 6-31, 37, 39 and 47-49 are indefinite as the definition of X and Y is vague and unclear. It is recited that R¹ and R² together form a ring X which is further substituted with Y, which is clear as to the embodiment. However, it is stated that X and Y can form a spiro ring with the heterocyclic ring choices is unclear. See claims 20, 23 and 27 for the same.

Applicants' response to overcome this rejection is not persuasive.

First of all, Y choices are defined already and hence these y choices are to be used to form the said spiro ring. Y can either be a substituents on a carbon of X or nitrogen of X. The claim reads X and Y optionally share a carbon atom. Thus,

Art Unit: 1624

it is not clear how such sharing can happen. The explanation offered clearly forces additional issue of balance of charge on the nitrogen for which there appears to be no enablement or written description. Hence, this rejection is maintained.

2. Claim 39 is indefinite as it is not clear what is intended by " claims1,47-52 " See last line of the claim.

Allowable Subject Matter

Claims 50-52 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
